# Rupal Shrivastava

**DATA & AI LEADER | ENTERPRISE TRANSFORMATION | TECHNOLOGY STRATEGY & PEOPLE LEADERSHIP**

shrivastava.rupal@gmail.com | LinkedIn | GitHub | Kaggle

## EXECUTIVE PROFILE

Data and analytics leader with 10+ years of experience across enterprise analytics, AI enablement, data modernization, intelligent automation, and operational transformation. Combines hands-on technical depth with portfolio leadership, cross-functional influence, production governance, and a sustained focus on developing people and reusable organizational capabilities.

| 10+ | 25+ | 10 | 4 |
|---|---|---|---|
| Years in analytics, automation and AI | Initiatives in a multi-year portfolio | New hires and interns mentored | Global regions supported |

## PROFESSIONAL EXPERIENCE

**JPMorgan Chase & Co.**

### Vice President, Quant Analytics Manager

Oct 2024 - Present

Leads a regulatory-operations analytics and automation portfolio, aligning business priorities with governed data, AI, and automation capabilities.

- Sets portfolio priorities, capacity plans, delivery standards, and cross-functional alignment across multiple business functions.
- Guides responsible AI adoption through governance, workshops, use-case shaping, and production-readiness coordination.
- Directs reusable data and AI-enabled delivery capabilities while preserving controls, reliability, and clear ownership.
- Develops technical talent through structured coaching, hands-on learning, and broader emerging-talent programs.

**JPMorgan Chase & Co.**

### Quant Analytics Associate Sr.

Apr 2022 - Oct 2024

Managed a multi-year analytics and automation book of work, owned production-critical workflows, and strengthened support and audit practices.

- Directed intake, prioritization, sprint planning, requirements, stakeholder engagement, delivery timelines, and benefit governance.
- Owned production controls, enhancements, break-fix resolution, and stakeholder sign-offs for critical workflows.
- Standardized production support and knowledge transfer to improve issue resolution and reduce dependency on individual developers.
- Onboarded and mentored new hires and interns across source control, ETL, review practices, and production support.

**Dematic**

### Business Analyst, Level II

May 2021 - Apr 2022

Developed cloud data, ETL, and self-service business intelligence solutions that improved data availability and performance visibility across regional teams.

- Built SQL and Snowflake data workflows with Alteryx and Power Query.
- Developed Power BI and Power Apps products for KPI and OKR tracking.

**Dematic**

### Business Analyst Intern

Aug 2020 - May 2021

Translated supply-chain and operations requirements into dimensional models, ETL workflows, and automated reporting.

**EXL Service**

### Assistant Manager, Services - Analytics

Apr 2019 - Jul 2019

Led customer segmentation and predictive analysis, translating quantitative insights into acquisition and cross-sell recommendations for global stakeholders.

## EARLIER EXPERIENCE

**EXL Service**

### Senior Business Analyst

Sep 2017 - Mar 2019

Built segmentation models, automated recurring analysis, streamlined data pipelines, and enabled self-service performance reporting.

**EXL Service**

### Business Analyst

Feb 2016 - Aug 2017

Applied SQL and SAS to acquisition analytics, campaign optimization, KPI automation, and stakeholder reporting.

**Analytics Quotient**

### Business Analyst

Nov 2015 - Feb 2016

Delivered consumer segmentation and decision-tree analysis to guide product targeting and multichannel marketing strategy.

**Mu Sigma**

### Trainee Decision Scientist

May 2015 - Oct 2015

Consolidated global marketing data, applied regression analysis, and built performance dashboards for enterprise decision-making.

## LEADERSHIP & CAPABILITY BUILDING

| | |
|---|---|
| **Enterprise leadership** | Portfolio strategy, governance, capacity planning, cross-functional alignment, and delivery standards. |
| **AI enablement** | Use-case shaping, education, governance coordination, knowledge systems, and responsible production readiness. |
| **People development** | Coaching, mentoring, structured onboarding, peer review, technical upskilling, and emerging-talent support. |

## TECHNICAL CAPABILITIES

| | |
|---|---|
| **AI & advanced analytics** | Generative AI, agentic AI solution design, LLM enablement, AI governance, machine learning, predictive modeling, NLP, prompt engineering |
| **Data engineering & automation** | Python, SQL, SAS, R, Alteryx, ETL pipelines, data modeling, Snowflake, AWS Glue, AWS Lambda, PySpark, UiPath, Camunda DMN |
| **BI & data platforms** | Power BI, Tableau, MicroStrategy, Power Apps, Microsoft SQL Server, MySQL, MongoDB, Hadoop, Spark, Hive |

## EDUCATION & EXECUTIVE LEARNING

| | |
|---|---|
| **University of Texas at Dallas** | M.S. Business Analytics, Major in Data Science \| GPA 3.92 / 4.0 \| 2021 |
| **Birla Institute of Technology, Mesra** | B.E. Chemical and Polymer Engineering \| GPA 3.58 / 4.0 \| 2015 |
| **MIT Sloan & MIT CSAIL** | Implementing Agentic AI; Artificial Intelligence: Implications for Business Strategy |
